

## Southern Tablelands Ecosystems Park

A Regional Botanic Garden for the Southern Tablelands at Forest 20 at the National

Arboretum Canberra

Of Interest at Forest 20, late May-June 2017

A celebration of Daises as well as some other species.

*Calotis glandulosa*, Mauve Burr-daisy. A perennial daisy with spiny seed heads.

*Grevillea diminuta*, Small Royal Grevillea is found locally in Brindabella Ranges

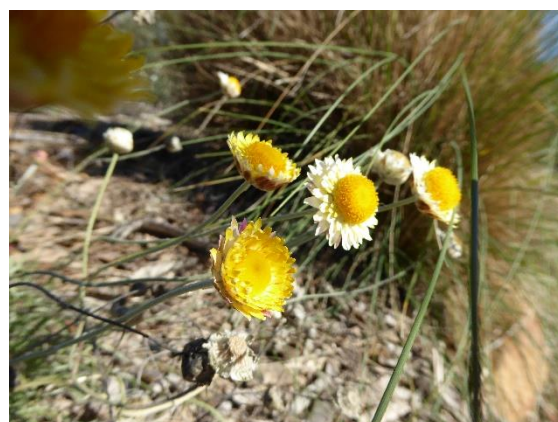

*Eryngium ovinum*, Blue Devil A perennial herb of the Apiaceae family as is the Flannel Flower

*Coronidium scorpioides*, Button Everlasting. A local perennial daisy species seen frequently.

*Ammobium alatum*, Winged Everlasting. A species that can be considered weedy.

*Leucochrysum albicans*, Hoary Sunray. This is a long flowering local daisy

*Coronidium gunnianum*, Pale Everlasting. A hardy long flowering daisy

*Brachyscome graminea*, Grass Daisy. This perennial species tolerates moist conditions.

*Brachyscome spathulata*, Spoon-leaved Daisy  
A tufted perennial daisy species of National Parks.

*Grevillea iaspicula*, Wee Jasper Grevillea. An endangered shrub first named in 1986

*Xerochrysum viscosum*, Sticky Everlasting A hardy perennial local daisy

*Vittadinia muelleri*, New Holland Daisy. A low growing local perennial Daisy

Our working bees are held each Thursday morning from 8am, please feel free to join our friendly group at whatever time you can. We break for morning tea at 10 am at the table near our shed. An excellent (though please consider bringing something) morning tea is guaranteed.

These photos were taken on the 21st of May this year by Andy Russell.

The address for STEP is: PO Box 440, Jamison Centre, ACT 2614.
