

Southern Tablelands Ecosystems Park

A Regional Botanic Garden for the Southern Tablelands at Forest 20 at the National

Arboretum Canberra

Of Interest at Forest 20, August 2017

Leucochrysum albicans, Hoary Sunray An attractive long flowering low perennial daisy

Leucochrysum albicans, Hoary Sunray. A subspecies of this plant.

Looking to the north past understory plantings with Mount Painter in the distance.

Warm Trees, an Arboretum program.

Grevillea diminuta, Small Royal Grevillea. A small shrub that tends to hide its flowers

Grevillea diminuta, Showing the whole plant.

Installed lean over sign with David Shorthouse STEP & Mariana Rollgejser, graphic designer.

STEP is pleased to have a new flag which was provided by Adam Jensson from FlagCentral.

Hardenbergia violacea, False Sarsaparilla. A hardy evergreen climber of the pea family.

Grevillea lanigera, Woolly Grevillea. An attractive low shrub.

Manorina melanocephala Noisy Miner. A common bird of the honeyeater family.

Our working bees are held each Thursday morning from 8am, please feel free to join our friendly group at whatever time you can. We break for morning tea at 10 am at the table near our shed. An excellent (though please consider bringing something) morning tea is guaranteed.

Grevillea iaspicula, Wee Jasper Grevillea. A hardy large long flowering shrub.

These photos were taken on the 2nd & 3rd of August this year by Andy Russell.

The address for STEP is: PO Box 440, Jamison Centre, ACT 2614.
