

Southern Tablelands Regional
Botanic Garden at Forest 20,
National Arboretum Canberra.

Of Interest at Forest 20, August 2024 Number 111

Acacia lanigera Woolly Wattle. Our first acacia to flower this Season. It is close to our entrance.

Acacia terminalis Sunshine Wattle. This attractive wattle is just starting to flower on our Wattle Walk.

Grevillea iaspicula Wee Jasper Grevillea with
Melangyna viridiceps Common Hoverfly.

Grevillea victoriae subsp. *nivalis* Mountain
Grevillea. Found south of the ACT

Cymbonotus lawsonianus Bears Ears. A prostrate
perennial herb with noticeably hairy leaves.

Leucochrysum albicans Hoary Sunray. Long
flowering local daisy which likes good drainage.

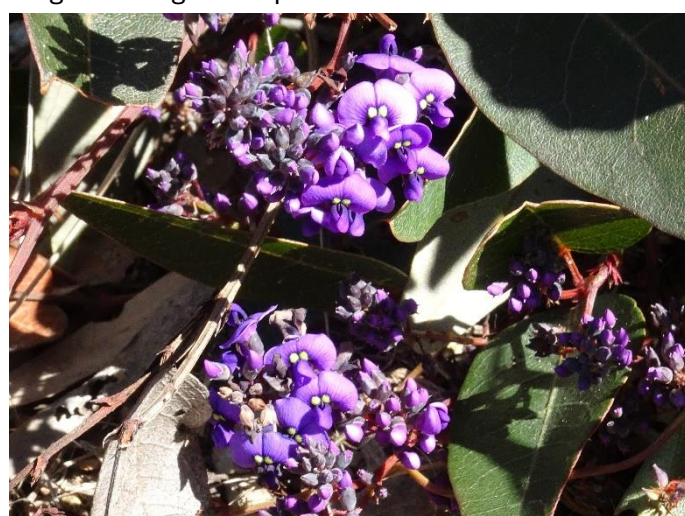

Grevillea lanigera Woolly Grevillea. Named for its woolly leaves and branchlets.

Crowea exalata Ginninderra Falls. A most attractive long flowering local species.

Westringia eremicola Slender Westringia. An exceptionally long flowering shrub.

Hardenbergia violacea False Sarsaparilla. Normally a climbing plant. Common in eastern Australia.

Web and home of the Leaf Curl Spider. May be *Phonognatha graeffei*.

Ranunculus papulentus. Large River Buttercup. Less flowers now due to winter conditions. Spreads by rhizomes.

Our working bees are held each Thursday morning from 8-30am. Morning tea (byo) is at 10am at the tables near the shed. Tools are supplied. New volunteers are welcome, park near the Forest 20 entrance, just turn up and make yourself known.
