

Southern Tablelands Ecosystems Park

A Regional Botanic Garden for the
Southern Tablelands at Forest 20 at
the National Arboretum Canberra

Of Interest at Forest 20, December 2017

Number 31

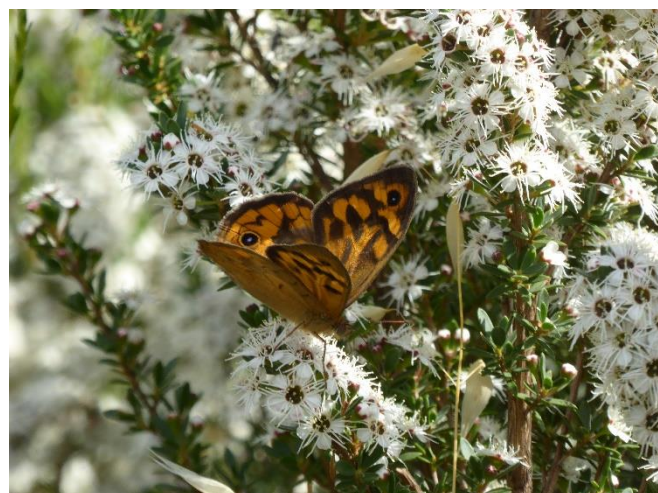

Xerochrysum viscosum, Sticky Everlasting. A hardy local everlasting daisy.

Podolepis jaceoides, Showy Copper Wire Daisy. Rising from the rootstock annually, an attractive daisy.

Eryngium ovinum, Blue Devil. A perennial herb with a thistle like heads. It regrows from the base each year.

Kunzea ericoides, Burgan with *Heteronympha merope* Common Brown Butterfly.

Eucalyptus rossii, Scribbly Gum. A hardy gum tree well known in the ACT for the insect scribbles on the bark.

Ranunculus papulentus, Large River Buttercup. This is growing on the edge of the ephemeral pond.

Callistemon subulatus, Dwarf Bottlebrush. A small open spreading shrub.

Callistemon sieberi, River Callistemon. This shrub has cream to pink flowers in spring and autumn.

Calotis lappulacea, Yellow Burr-daisy. A dense low herb with spiny seed capsules.

Arthropodium fimbriatum, Chocolate Lily. An erect perennial herb that grows on a variety of soils.

Bulbine glauca, Rock Lily. A tufted herb that holds its flowers for long periods.

Calytrix tetragona, Common Fringe Myrtle. The red bracts remain after the flowers are shed.

Our working bees are held every Thursday morning from 8am, please feel free to join our friendly group at whatever time you are able to. We break for morning tea at 10 am at the table near our shed. An excellent morning tea is guaranteed.

These photos were taken on the first of December this year by Andy Russell.

The address for STEP is: PO Box 440, Jamison Centre, ACT 2614.
