

Callistemon subulatus, Dwarf Bottlebrush. An arching small to medium sized dense shrub with bright red brushes.

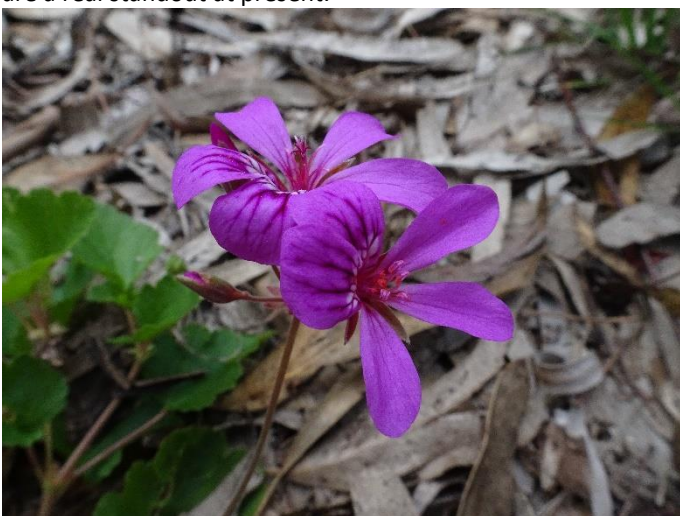

Callistemon pallidus, Lemon Bottlebrush. An upright medium sized shrub on the edge of the ephemeral wetland.

Acacia mearnsii, Late Black Wattle and *Melangyna viridiceps* Common Hoverfly. Fragrant pale-yellow blooms are a real standout at present.

Lomandra longifolia, Spiney-headed Mat-rush. A rhizomatous herb which can grow into large clumps.

Pelargonium rodneyanum, Magenta Storksbill. A small perennial herb that is best propagated by division of tubers.

Brachyscome rigidula, Cut-leaf Daisy. A sprawling wiry perennial daisy with mauve flowers.

Eucalyptus pauciflora, Snow Gum, with Scarab and Soldier beetles.

Pelargonium australe, Native Pelargonium. Best known of the seven Australian pelargonium species.

Goodenia ovata, Hop Goodenia. A sprawling shrub-groundcover. Has struggled when frosts were severe

Dodoniaea viscosa ssp. angustissima, Narrow-leaved Hopbush. Male and female flowers on separate bushes

Wahlenbergia stricta, Tall Bluebell. A great display in the Kurrajong Rocks area.

Wahlenbergia gracilis, Australian or Sprawling Bluebell. Often found in urban Canberra.

Our working bees are now back to full swing . Check in CBR is still required at our shed. A BYO morning tea is held at the tables near the shed. We have sufficient chairs to be able to space out. On a different note, please watch your step on our water damaged paths.
