

A Regional Botanic Garden for the
Southern Tablelands at Forest 20

Of Interest at Forest 20, January 2022
Number 80

Podolepis jaceoides Showy Copper-wire Daisy with
Lasioglossum (Chilactictus) sp. A Halictid native Bee

Eryngium ovinum Blue Devil. A perennial herb that
renews from the base each year.

Pelargonium australe Austral Stork's-bill. Best known
of the seven Australian pelargonium species.

Lythrum salicaria Purple Loosestrife. A species that
favours damp areas but can be used as a garden plant.

Leptospermum continentale Prickly Tea-tree. A tall
shrub which one of several Tea-trees species now
flowering

Callistemon pallidus. Lemon Bottlebrush. An upright
shrub that can grow to 3 metres tall.

Sorghum leiocladum Wild Sorghum. Quite a stunning perennial grass. Same genus as cultivated sorghum.

Sporobolus creber Slender Rat's-tail Grass. A quite tall grass that is less well known.

Austrostipa verticillata Slender Bamboo Grass. A tall clumping grass that will grow over metre tall.

Rytidosperma bipartitum Ringed Wallaby Grass. A dense growing species that is an attractive grass.

Lachnagrostis filiformis Blown Grass. An annual or perennial grass that is a volunteer species at STEP.

Dichelachne crinita Longhair Plume Grass. An open clumping grass with feathery plumes.

Our working bees are continuing in these uncertain times. Check in CBR is required at our shed. A BYO morning tea is held at the tables near the shed. We have sufficient chairs to be able to space out.

These photos were taken by Andy Russell on Thursday December 30th, 2021. The postal address for STEP is PO Box 440, Jamison Centre, ACT 2614.
