

Southern Tablelands Ecosystems  
Park A Regional Botanic Garden for  
the Southern Tablelands at Forest  
20, National Arboretum Canberra

Of Interest at Forest 20, July 2021

Number 75

*Brachyscome rigidula* Cut-leaf Daisy. A sprawling wiry perennial daisy with hairy stems.

*Grevillea lanigera*, Woolly Grevillea. Named for its woolly branchlets and leaves. A woodland species.

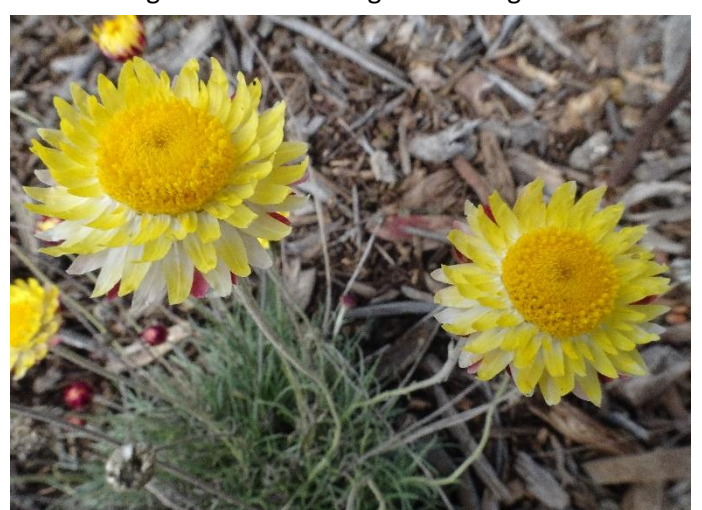

*Crowea exalata* "Ginninderra Falls", Small Crowea. An attractive long flowering local species.

The ephemeral wetland where the Spotted Gras Frog, Eastern Froglets and other frogs are calling.

*Leucochrysum albicans*, Hoary Sunray. An attractive everlasting daisy with white and yellow forms.

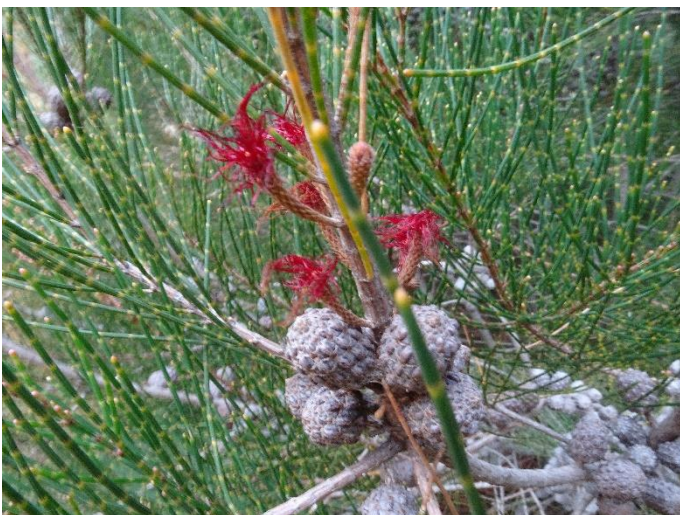

*Leucochrysum albicans*, Hoary Sunray. This picture show more yellow form.

*Hardenbergia violacea*, False Sarsaparilla. Now flowering for over a month, particularly early.

Hessian matting laid beside the ramp entrance to Forest 20 with the aim to reduce erosion.

*Allocasuarina nana*, Dwarf She-oak. Showing the female plant's flowers and last seasons seed cones.

Check in CBR is done at our shed. The STEP working bees are being held each Thursday from 8am. Car parking is in the lowest section of the new parking area where you will see a group of cars. Enter by the new concrete ramp. Morning tea is byo and held near our shed. Masks should be worn when congregating.

*Ammobium alatum*, Winged Everlasting. A perennial daisy that may be considered invasive.

*Acacia genistifolia*, Early Wattle with *Melangyna viridiceps* Common Hoverfly. Still here though it is cool

*Allocasuarina nana*, Dwarf She-oak. Adjacent male plant.

These photos were taken by Andy Russell on Tuesday & Wednesday June 29<sup>th</sup> & 30<sup>th</sup>, 2021. The postal address for STEP is PO Box 440, Jamison Centre, ACT 2614
