

A Southern Tablelands Regional Botanic Garden at Forest 20, National Arboretum Canberra.

Of Interest at Forest 20, July 2022
Number 86

The Ephemeral wetland. As wet as it has ever been. *Marsilea drummondii* Nardoo is thriving as are frogs.

Hardenbergia violacea Falser Sarsaparilla. Climbing a eucalypt which given it some cover from frost

Chrysocephalum apiculatum Common Everlasting A hardy local perennial daisy with many forms

Acacia gunnii Ploughshare Wattle. A low growing wattle in the Acacia Walk.

Eucalyptus pauciflora Snow Gum. The flowers were not in easy camera reach.

Acacia rubida Red-stemmed Wattle. Another species in the Acacia Walk that is just starting to flower.

Podolepis jaceoides Showy Copper-wire Daisy. Receiving some shelter from the nearby shed.

Goodenia ovata Hop Goodenia. A rounded shrub that responds well to pruning.

Eucalyptus macrorhyncha Red Stringybark. Colourful new growth on a young tree.

Grevillea iaspicula Wee Jasper Grevillea. A tall shrub that is an endangered species in its natural setting.

Westringia eremicola Slender Westringia. A particularly long flowering shrub.

Rytidosperma bipartitum Ringed Wallaby Grass. A dense growing species that is an attractive species.

While Forest 20 has been closed to visitors due to water damage to our path system, our working bees are continuing each Thursday morning. Morning tea (byo) is at 10am at the tables near the shed

These photos were taken by Andy Russell on a cool afternoon on June 30th, 2022 . The postal address for STEP is PO Box 440, Jamison Centre, ACT 2614.
