

Southern Tablelands Ecosystems Park

A Regional Botanic Garden for the
Southern Tablelands at Forest 20 at
the National Arboretum Canberra

Of Interest at Forest 20, November 2018

Number 43

Hakea microcarpa, Small-fruited Hakea. A shrub with sharp pointed leaves. Good cover for small birds.

Grevillea iaspicula, Wee Jasper Grevillea. A tall shrub that is endangered in its natural situation.

Leucochrysum albicans, Hoary Sunray. A long flowering local daisy.

Linum marginale, Native Flax. A short-lived perennial herb that is often overlooked when not in flower.

Pultenaea procumbens, Heathy Bush-pea. A spreading or rarely erect shrub.

Bulbine glauca, Rock Lily with *Apis mellifera* European Honey Bee. A tufted herb that flowers for a long period.

Dianella revoluta, Blue Flax-lily. A tough clumping perennial species that will grow in sun or shade.

Podolepis jaceoides, Showy Copper-wire Daisy. An excellent long flowering daisy.

Westringia eremicola, Slender Westringia. A free flowering small shrub found from Queensland to SA.

Microseris lanceolata, Murnong. A perennial herb used as a food source by indigenous communities.

Kunzea parvifolia, Violet Kunzea. A hardy small shrub that is drought and frost tolerant.

Dillwynia sericea, Showy Parrot-Pea. An upright or spreading shrub producing flowers in clusters.

Working bees are held every Thursday morning from 8am, please feel free to join our friendly group at whatever time you can. We break for morning tea at 10 am at the table near our shed. An excellent BYO morning tea is guaranteed. Park on lower section of overflow carpark where you see a group of vehicles.
