

Southern Tablelands Regional Botanic
Garden at Forest 20, National
Arboretum Canberra.

Of Interest at Forest 20 October 2023
Number 101

Grevillea victoriae subsp. *nirvalis* Mountain or
Kosciusko Grevillea. The only grevillea found there.

Mirbelia oxylobioides Mountain Mirbelia. A shrub of
up to 1.5m generally found at higher altitudes.

Hakea microcarpa Small-fruited Hakea. A dense
woody shrub with spiky leaves. Flowers attract insects

Swainsona galegifolia Smooth Darling Pea. A long
flowering attractive pea

Velleia paradoxa Spurred Velleia. A perennial herb of
the Goodeniaceae family found across the southeast.

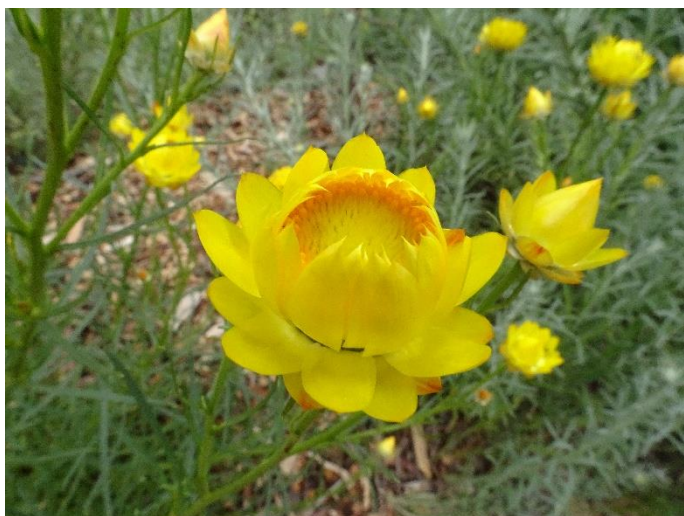

Rhodanthe anthemoides Camomile Daisy. A
particularly attractive perennial daisy.

Ranunculus lappaceus Common Buttercup. A perennial herb that is found across eastern Australia.

Ranunculus papulentus Large River Buttercup with *Lassioglossum lanarium* a Halictid Native Bee.

Xerochrysum viscosum Sticky Everlasting. A perennial daisy: cut back when new growth comes in spring.

Leucochrysum albicans Hoary Sunray. An attractive perennial daisy with white or yellow ray florets.

Craspedia variabilis Billy Button. A widespread annual or perennial species that tolerates damp conditions.

Pultenaea daphnoides Large-leaved bush-pea. One of our newer pea species found in our Parade of Peas.

Our working bees are held each Thursday morning from 8am. Morning tea (byo) is at 10am at the tables near the shed. Tools are supplied. New volunteers are welcome, just turn up and make yourself known.
