

Southern Tablelands Regional
Botanic Garden at Forest 20,
National Arboretum Canberra.

Of Interest at Forest 20,
October 2024 Number 113

Pseudonaja textilis Eastern Brown. Beware of this fellow seen near our entrance.

Grevillea Wilkinsonii Tumut Grevillea. A rare species of the Southern Tablelands

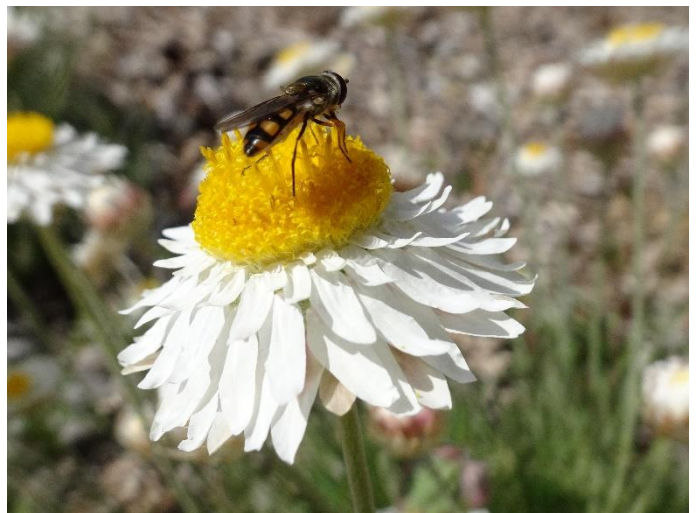

Stypandra glauca Nodding Blue Lily. A drought and frost tolerant species.

Swainsona galegifolia Smooth Darling Pea. A very long flowering tall attractive pea.

Dillwynia sieberi Prickly Parrot-pea. Not a common species in cultivation but worth having.

Leucochrysum albicans Hoary Sunray and
Simosyrphus grandicornis Yellow Shouldered Stout Hoverfly.

Mirbelia oxylobioides Mountain Mirbelia. A bushy shrub to 1.5 metres with attractive flowers.

Pultenaea pedunculata Matted Bush-pea. A rare and endangered species. May cover several metres.

Velleia paradoxa Spurr Velleia. A short lived perennial herb. Widespread across NSW.

Viola betonicifolia Mountain Violet. May set seed without obvious flowering.

Craspedia variabilis Billy Buttons. A species that is widespread across eastern and southern Australia

Our working bees are held every Thursday from 8-30am. Morning tea (byo) is at 10am at the tables near the shed. Tools are supplied. New volunteers are welcome, park near the Forest 20 entrance, just turn up and make yourself known.

Grevillea victoriae subsp. nivalis Mountain Grevillea. A particularly long flowering shrub. Found south of the ACT.
